# ADULT SLIDES:

## 1<sup>st</sup> Tower

- 1 Rafting Turbulance Combination Slide (Extreme, used with 1 or 2-person rafts)
- 1 Blackhole-Rafting – Flying Boats Combination
- 1 two-lane Multislide
- 1 Space Hole

This tower has 4 slides starting from two platforms at different heights. Two of these slides are the Rafting Turbulance combination and Blackhole-Rafting-Flying Boats combination, which are used with one or two-person rafts. The slide measures 17.65 m in height.

Considering the height, the Rafting-Turbulance Combination is one of the park's extreme slides. The Blackhole-Rafting-Flying Boats Combination is 125 m long, making it the longest slide in the park. The slide experience is enriched with a drop added at the end of the standard boat slide design. This tower also features a two-lane multislide and a Space Hole slide.

# ADULT SLIDES:

## 2<sup>nd</sup> Tower

- 1 Looping Rocket (Extremely fast slide)
- 1 Freefall
- 1 Kamikaze
- 1 Windigo (A slide where 4 people can race simultaneously)

This tower has 3 platforms of different heights, featuring the park's highest and fastest slide, the Looping Rocket. This slide, at 19.50 m high, offers a free fall experience with its rocket-shaped special entrance.

Additionally, this tower has two fast slides: Freefall at 16.56 m high and Kamikaze. The lowest point of this tower, at 13.52 m, features the Windigo, which starts with a twisty Aquatube and continues with a rapid drop experience, ending with a dry exit. The high-capacity Windigo, with 4 lanes, also offers a racing experience to users.

# ADULT SLIDES:

## 3<sup>rd</sup> Tower

1 Rift Slide (The first in Turkey, an extreme slide used with 1 or 2-person rafts)

The last slide designed for adults is the Rift slide, located in this tower. At 10.8 m high, this slide is used with one or two-person rafts and has a unique structure both in its aesthetic design and the sliding experience it offers. The sliding experience starts with a standard boat slide design, continues with a large drop and subsequent release movement, and ends with a dry exit perpendicular to the sliding direction. The first Rift slide in Turkey is part of this project.
